

DIGITAL TRANSFORMATION: BRIDGING LUXURY'S DIGITAL DIVIDE

Sigh...can't find the design file for the white gold necklace from the Etoile Collection. Marc is on vacation-did he say he would email it, hand draw it and leave in on my desk or did he give it to Marie? Better find it before the meeting today.

Just entered the changes Marc made to the design file for the white gold necklace... that was quick...ok next, make sure Marie entered her changes to the white gold earrings for the set...done! All in time to for our team lunch date. Perfect!

Who's presenting the latest version of the cost breakdown for the Etoile Collection? I have V4 here so I can go over it...but didn't Marc say he updated it to include the white gold necklace? Shouldn't we be working from V5?

Great work, team! I've entered all the Etoile Collection updates as you spoke in the iPad... I'll generate the report and send it to everyone later today. See you later for our team lunch.

Can someone send me the report I asked for last week, right now? My meeting's in 2 hours... Marc didn't send it before his vacation...it's for the Etoile Collection with all the details... grams of gold, carats of diamonds and hours of labor...

Thanks for the report, team! Ready for my meeting with Sourcing...2 days early! Today's team lunch is on me to thank you for your hard work...Marc, welcome back!
